A General Provisions Price List

The fee model applicable to Information Products distinguishes by (i) Usage Type, (ii) Customer Category and (iii) Unit of Count.

The Usage Type specifies which licence is due for Onward Dissemination, Display Data Usage, Non-Display Data Usage and/or CFD Data Usage and the respective fees that are payable. Customer Categories cover the Customer's and/or the Subscriber's intended purpose of use or the customer type. The scope of usage is determined by Units of Count.

The fees included in the Price List are to be paid by the Customer.

Distribution Licence Fees, Data Fees, Non-Display Data Licence Fees and CFD Data Licence Fees are payable on a cumulative basis, if not stated otherwise in the Price List.

All prices stated are before value-added tax (VAT).

Information Products are colour-coded to highlight their granularity levels. The differences between these granularity levels are set out in the following table.

Granularity

Premium	<ul style="list-style-type: none"> Real-time Analytics Information Products with the most granular order book data Lowest latency
Ultra	<ul style="list-style-type: none"> Advanced Information Products Un-netted pre-trade ¹⁾ and trade data Very low latency
Core	<ul style="list-style-type: none"> Regular Information Products Netted pre-trade ¹⁾ and un-netted trade data Low latency
MiFID II – Disaggregated Information Products	<ul style="list-style-type: none"> Information Products offered by Deutsche Börse AG relating to Article 10 of Commission Delegated Regulation (EU) 2017/567

1) Netted pre-trade information provides bids and offers at specified time intervals; un-netted pre-trade information provides all bids and offers (up to the pre-defined order book depth) as soon as they occur.

Deutsche Börse AG reserves the right to make changes to content and prices of the Information Products in accordance with the Market Data Dissemination Agreement.

A description of the respective Information Products is available at www.mds.deutsche-boerse.com.

If Licensed Information is directly or indirectly procured via Deutsche Börse AG's CEF® Core Multicast Systems, the content of the Information Products may be limited.

B Onward Dissemination

B.1 General Provisions Distribution Licence Fees

Distribution Licence Fees apply for the right of Onward Dissemination of Licensed Information. The Distribution Licence Fees for the category Real-time includes the fees for the respective category Delayed. Distribution Licence Fees are charged on the basis of the individual Customer Categories. They apply once per Customer per Information Product per month if not otherwise specified. A distinction is made between the Customer Categories within the meaning of Section A para. 1: Vendors, Sub-Vendors, Central Institutes of a Banking Group, Web Hosting Providers and Multi-Member-System/ Service Providers.

For Distribution Licence Fees the fee liability commences upon receiving the information, at the latest on the start date specified by the Customer in accordance with Section 4.1 of the General Terms and Conditions to the Market Data Dissemination Agreement. Distribution Licence Fees will be charged to the Customer monthly in advance. Such Distribution Licence Fees are not refundable upon termination of the Market Data Dissemination Agreement during the current calendar month.

B.2 Standard Distribution Licence Fees

Deutsche Börse Group Spot Markets

For transfer or disclosure of Exchange-EDP data by trading participants or by Multi-Member-System / Service Providers to trading participants of Frankfurter Wertpapierbörse or Eurex Deutschland the General Terms and Conditions to the respective Connection Agreement or Provider Connection Agreement of Frankfurter Wertpapierbörse or Eurex Deutschland apply.

B.4 Special Provisions Distribution Licence Fees

Special Fees and Campaign

	Description and Prices	Supplemental Provisions
Webhosting	<p>Unlimited amount of Information For Webhosting with unlimited amount of Information, prices according to Section B.2 per Displaying Party shall apply.</p> <p>Limited amount of Information For Webhosting with limited amount of Information (up to max. 25 individual instruments) 59.70 €/month per hosted domain of the Displaying Party will be charged. The number of domains is a Unit of Count within the meaning of Section A para. 1.</p> <p>Individual instruments may only be selected from the following Information Products:</p> <ul style="list-style-type: none"> ▪ Xetra® Ultra ▪ Xetra® Core ▪ Xetra® ETFs & ETPs ▪ Eurex® Ultra ▪ Eurex® Core ▪ DAX® Indices <p>An individual instrument is defined per ISIN per trading venue.</p>	<p>Order via the online order form in MD+S interactive.</p> <p>For the Onward Dissemination of Delayed Data via Webhosting the Sections 24 et seq. of the "General Terms and Conditions to the Market Data Dissemination Agreement" shall apply.</p> <p>Xetra® ETFs & ETPs Fees do not apply, if respective Licence Fees for the respective category for Xetra® Ultra are being paid.</p>
Onward Dissemination by Banking Group Members	<p>The Central Institute (or the Customer if the Central Institute is not the party to contract) will be charged four times Distribution Licence Fees for the right of Banking Group Members to disseminate the Licensed Information onward.</p>	<p>Order via the online order form in MD+S interactive.</p> <p>For the Onward Dissemination of Information by a Banking Group Member Section 10.4 of the "General Terms and Conditions to the Market Data Dissemination Agreement" shall apply.</p>

C Display Data Usage

Data Fees are charged for the following Customer Categories: (i) Professional Customers (general usage), (ii) Professional Customers News Services, (iii) Professional Customers TV Ticker, and (iv) Non-Professional Customers.

Fees charged for Customer Categories (i) to (iii) are governed by Section C.1, Fees for (iv) Non-Professional Customers are governed by Section C.2.

Data Fees per Information Product are invoiced on the basis of the Units of Count Access ID, Physical User ID or per individual price quotes (for Non-Professional Customers), provided that no lump sum has been chosen. In case the Access ID is chosen as Unit of Count, each access to Information is billable unless no exception applies in accordance with Section 14.10 a) of the General Terms and Conditions to the Market Data Dissemination Agreement.

If the Physical User ID is used as the Unit of Count, a User's total accesses to an Information Product in accordance with Section 14.10 b) of the General Terms and Conditions to the Market Data Dissemination Agreement can be reported on a consolidated basis. The fee payable by the Customer in this case will be determined by the number of Users. If a fee is determined by individual price quote, the fee for the quote will be applied. An individual price quote is defined as instrument per ISIN per trading venue.

A choice can be made between the above-mentioned Units of Count. If Physical User ID is to be selected as the Unit of Count, the requirements of Section 14.10 b) of the General Terms and Conditions to the Market Data Dissemination Agreement must be met before making the choice. The use of Access ID is subject to the requirements of Section 14.10 a) of the General Terms and Conditions to the Market Data Dissemination Agreement.

The fee liability for Data Fees commences upon the Entitlement to the Information by the Customer or its Subscribers or upon the feasibility to access the information. The Customer is charged Data Fees as soon as the Reporting is available in accordance with Section 14 of the General Terms and Conditions to the Market Data Dissemination Agreement.

C.1 Data Fees Professional Customers

C.1.1 General Provisions Data Fees Professional Customers

No Data Fees are charged for Delayed Data.

Level 2 Information Products include Level 1 Information.

C.1.2 Standard Data Fees Professional Customers

Data Fees for provision of Information from several sources to Subscribers via one Access (valid as of 1 Mar 2024)	<p>If a Sub-Vendor receives Information from several Vendors and provides Information based on these several sources via one access to its Subscribers, and only one source per instrument is accessible to the Subscriber at one point in time, an additional 10% of the respective Data Fees per Access ID are charged. This applies to Professional Customers as well as Non-Professional Customers.</p> <p>The usage of a summarized Reporting of Access IDs (netting) for this case is subject to the terms stated in section 8.4 lit. b) of the GTCs.</p>	<p>Order via online order form in MD+S interactive.</p> <p>Only available to Sub-Vendors.</p>																										
Lump sum for usage in news service	<p>For the Internal Usage of Information within a news business, i.e. provision of Information to reporters and staff members for the purposes of news coverage, Deutsche Börse AG offers a separate Customer Category with a lump sum in the amount of 23,484.00€ per month.</p> <p>This lump sum applies for all staff members within the news business of the Customer and for all Information Products:</p> <p>The amount is charged on a monthly basis in advance.</p>	<p>Order via online order form in MD+S interactive.</p>																										

Free Trial	The Customer is entitled to provide Information Products to Subscribers free of charge for a time period of maximum 30 calendar days. However, the same Information Product to the same Subscriber may be made available for trial purposes only once per calendar year, whereby the period between two trials of the respective Information Product must not fall short a minimum of one calendar year.	The rules of the Market Data Dissemination Agreement such as Reporting, Dissemination within Closed User Groups etc. apply without reservation.
TV Ticker	<p>The Data Fees shown in the table below apply for the display of licensed Information as part of journalism activities and the operation of a TV Ticker. Billing is based on the "Number of Viewers" Unit of Count specified below.</p> <p>If the Customer wishes to display other Information Products than listed below, the prior approval of Deutsche Börse AG has to be obtained.</p> <p>In addition to the below shown prices Deutsche Börse AG offers to charge a lump sum for the TV Ticker Data Usage. Against payment of a monthly lump sum of 15,760.00€/Month Deutsche Börse AG grants the Customer the right to display "DAX® Indices", "Xetra® ETFs & ETPs" and "Xetra® Core" or "Xetra® Ultra", respectively, within TV Ticker to an unlimited number of viewers.</p>	<p>For the TV Ticker Data Usage Supplemental Provisions according to Sections 59 and 60 of the General Terms & Conditions to the Market Data Dissemination Agreement apply.</p> <p>Order via online order form in MD+S interactive.</p> <p>Precondition for ordering is that Distribution Licence Fees for the respective Information Products are being paid.</p>
Lump sum 360T® Information for Internal Usage (includes Non-Display Data Usage)	<p>The monthly lump sum (in €) applies for Internal Usage including unlimited number of entitled Access IDs and/or Non-Display Data Usage for trading based activities and Other Application Usage and is available on request.</p> <p>The amount is charged monthly in advance.</p>	Order via online order form in MD+S interactive.
Lump Sum KAIKO® Information for Internal Usage (includes Non-Display Data Usage)	<p>The monthly lump sum (in €) applies for Internal Usage and/or Non-Display Data Usage for trading based activities and Other Application Usage and is available on request. The Customer may opt for a 50 % discounted special offer. The special offer applies for the first year for specific Information Products ordered before 31 December 2024.</p> <p>The fees depend on the number of Access IDs and/or Devices, which according to the definitions in Section 2 of the General Terms and Conditions to the Market Data Dissemination Agreement use Information for Display and/or Non-Display purposes.</p> <p>These are subdivided in two price levels: (i) Entry: 1 - 30 Access IDs and/or 1-3 Devices and (ii) Unlimited: unlimited number of Access IDs and/or unlimited number of Devices or the number of Access IDs and/or Devices cannot be controlled or specified or only the unlimited price level is available. The Entry price level can be ordered multiple times to increase the coverage of Access IDs and/or Devices.</p> <p>The amount is charged monthly in advance.</p>	Order via online order form in MD+S interactive in the respective price level.

The Entry price level can be ordered multiple times to increase the coverage of Access IDs and/or Devices.</p> <p>The amount is charged on a monthly basis in advance.</p>	<p>Order via online order form in MD+S interactive in the respective price level.</p>

D Non-Display Data Usage

D.1.1 General Provisions Non-Display Data Licence Fees

The Non-Display Data Licence Fees are billed on the basis of the following Customer Categories (in accordance with Section A para. 1), which are determined through the intended scope of use:

- (i) Trading as Principal,
- (ii) Brokerage,
- (iii) Trading Platform,
- (iv) Index Calculation and
- (v) Other Application Usage.

The term 'trading based activities' comprises of the Customer Categories (i) to (iii). The term "other activities" comprises of the Customer Categories (iv) and (v). The scope of usage covered within the Customer Categories is described in detail below.

The Market Data Fees for the Non-Display Data Licences applicable to trading based activities depend on the number of Devices, which use Information for Non-Display purposes according to the definition in Section 2 of the General Terms and Conditions to the Market Data Dissemination Agreement. This is subdivided in four price levels:

- Entry: 1–5 Devices,
- Medium: 6–10 Devices,
- Plus: 11–30 Devices,
- Unlimited: if > 30 Devices or the number of Devices cannot be controlled or specified or only the unlimited price level is available.

Fees for trading based activities are determined by a tiered model:

- Tier 3 (lowest level): Trading as Principal or Brokerage
- Tier 2: Trading as Principal and Brokerage, and
- Tier 1 (highest level): Trading Platform

Each higher level includes the Usage of the lower levels. For each Tier the price levels depending on the number of devices used (Entry, Medium, Plus, Unlimited – see above) apply. Billing will be rendered based on the relevant Tier and price level whereas the total number of Devices for each Customer Category included shall be aggregated. Details are described below.

Fees for other activities are determined by the following Customer Categories without differentiation regarding the number of devices used:

- Index Calculation, and
- Other Application Usage.

Alternatively to a billing based on different Customer Categories, Tiers or number of Devices, also a lump sum (Enterprise Licence) is available, which comprises all available Customer Categories for one Information Product with unlimited scope of use regarding Devices used (see Section D.3 Non-Display Enterprise Licence Fees).

Non-Display Data Licence Fees apply once per Customer per licenced Information Product with the highest granularity level and per category (see above) per month if not otherwise specified and shall be remunerated cumulatively if not otherwise specified.

D.1.2 Customer Categories and Unit-of-Count Devices

The following description provides further details of the Customer Categories and respective counting of Devices applicable for the Non-Display Data Licence Fees.

Trading based activities

Examples of 'trading based activities' include semi-automated or automated order/quote generation, order pegging, price referencing for trading purposes, smart order routing to facilitate trading, order management, execution management, market making, 'black box' trading, algorithmic trading, program trading and the operation of trading platforms as well as quoting and trading of financial derivatives (including but not limited to futures, options, warrants and certificates linked to the respective underlying market data).

The following Customer Categories are relevant for trading based activities:

(i) Trading as Principal

The Customer Category Trading as Principal refers to proprietary trading activities (i.e. trading in own name and for own account; "Trading as Principal"). It includes algorithmic and/or automated and/or semi-automated order generation, automated execution management and/or automated quoting as part of market making and instrument pricing (e.g. as part of derivatives issuance and trading) for the purpose of trading in one's own name. Trading as Principal does not include the completion of trades on behalf of Customer's clients even if Customer is using its own inventory. Such usage is included in Customer Category "Brokerage". E.g. the Customer Category Trading as Principal does not entitle Customers to grant third parties access for activating algorithmic orders and/or accessing APIs capable of receiving order messages from third parties. Non-Display Licence Fees are charged on a per Information Product basis according to the total number of Devices which have access to Information. Whenever a Device has the possibility to access Information simultaneously for the Customer Category "Trading as Principal", each possible access shall be counted as a Device.

(ii) Brokerage

The Customer Category Brokerage refers to brokerage activities and the facilitation of client trading activities (i.e. trading in another's name for the account of others or trading in own name for the account of others (brokerage business); "Brokerage"). It includes but is not limited to automated order generation and execution management for clients (e.g. smart order routing) as well as the provision of access for clients to functions augmenting the user's trading activities and/or algorithmic trading tools (e.g. generation of child orders based on parent orders). Non-Display Licence Fees are charged on a per Information Product basis according to the total number of Devices which have access to Information. Whenever a Device has the possibility to access Information simultaneously for the Customer Category "Trading as Brokerage", each possible access shall be counted as a Device. This includes every technical or manual access (including trade message access point) for clients who can activate algorithmic orders and/or access APIs capable of receiving order messages from third parties. Each of these accesses shall be counted separately as an additional Device.

(iii) Trading Platform

The operation of a trading platform, i.e. organising a market (irrespective of whether buy-side and sell-side interests are brought together on a bilateral or multilateral basis), establishes a single Customer Category ("Trading Platform"). In particular, this includes operating an exchange, a multilateral trading facility ("MTF"), an organized trading facility ("OTF") or comparable alternative trading system, performing systematic internalization ("SI") as well as the offering of so-called broker crossing networks, multi-dealer platforms or dark pools. For the avoidance of doubt, the operation of a Trading Platform according to third country provisions (e.g. based on the US Regulation NMS or Regulation ATS) is also subject to this provision. Non-Display Licence Fees are charged on a per Information Product basis according to the total number of Devices which have access to Information. Whenever a Device has the possibility to access Information simultaneously for the Customer Category "Trading Platform", each possible access shall be counted as a Device.

Other activities

The following Customer Categories are relevant for other activities:

(iv) Index Calculation

The Customer Category Index Calculation refers to the Non-Display Data Usage for the purpose of administration including calculation and dissemination of an index / a benchmark or several indices / benchmarks ("Index Calculation"). This Non-Display Customer Category addresses the administrator who has control over the provision of the index or benchmark. It does not address Non-Display Data Usage on behalf of a third party, such as the index calculation as a calculation agent with or without being the administrator for such an index or benchmark. In cases where an index or benchmark is being calculated on behalf of a third party that third party is subject to the licensing requirement.

Deutsche Börse AG determines whether an index or benchmark is calculated on behalf of a third party by taking into consideration the specific circumstances of the case, e.g., whether

- Some or all intellectual property rights of the index or benchmark belong to the third party, and/or
- The calculation agent is commissioned by a third party for the calculation of an index or benchmark, and/or
- The third party delivers the index methodology which needs to be applied by the calculation agent.

(v) Other Application Usage

When licensing this category, Customer is entitled for Non-Display Data Usage for other purposes than trading based activities and/or Index Calculation. This includes, but is not limited to the following usages: risk management, profit and loss calculation, portfolio valuation, quantitative analysis, fund administration, fund accounting, portfolio management or instrument pricing. It does not include the execution of Non-Display Data Usage by the Customer as a calculating agent on behalf of a third party. This means where derived data (e.g. iNAV's) are calculated on behalf of a third party and some or all of the intellectual property rights in the underlying product (e.g. an ETF) will vest in that third party, the third party is subject to a Non-Display Data Usage licence for Other Application Usage.

D.1.3 Tiered fee model for trading based activities

The following description provides further details of the tiered model that determines the Non-Display Licence Fees for trading based activities:

Tier 3 – Trading as Principal or Brokerage

Tier 3 of the Non-Display Data Licence Fee applicable for trading based activities requires the selection of a licence for either the Customer Category

Trading as Principal, **or**
Brokerage.

The licence and the total number of Devices refers only to the selected activity.

Tier 2 – Trading as Principal and Brokerage

Tier 2 of the Non-Display Data Licence Fee applicable for trading based activities includes the licence for the Customer Categories

Trading as Principal, **and**
Brokerage.

Thus, the total number of Devices for each Customer Category included shall be aggregated. Non-Display Data Licence Fees for Tier 3 do not apply if Non-Display Data Licence Fees for Tier 2 are paid.

Tier 1 – Trading Platform

The category Tier 1 includes Non-Display Data Usage for the Customer Categories

Trading Platform, **and**
Trading as Principal, **and**
Brokerage.

Additional Non-Display Data Licence Fees for Tier 2 and Tier 3 do not apply if Non-Display Data Licence Fees for Tier 1 are paid. The total number of Devices for each of the Customer Categories applicable shall be aggregated.

D.4 Special Provisions Non-Display Data Licence Fees

Lump Sum, Netting and Campaign

	Description and Prices	Supplemental Provisions
Netting with regard to Other Application Usage by Vendors	Other Application Usage by Vendors does not need to be licensed if the Vendor already pays Real-time Distribution Licence Fees for the respective Information Product and the Non-Display Data Usage is exclusively simple analytics and calculations.	The Customer has to inform Deutsche Börse AG of its Information Usage in advance and needs to obtain the written approval from Deutsche Börse AG that the respective Information Usage does not require further licensing.
Lump sum 360T® Information for Non-Display Data Usage (includes Internal Usage)	The monthly lump sum (in €) applies for Non-Display Data Usage trading based activities and Other Application Usage and/or Internal Usage including unlimited number of entitled Access IDs and is available on request. The amount is charged monthly in advance.	Order via online order form in MD+S interactive.
Lump sum 360T® Information for Non-Display Data Usage (includes Onward Dissemination to Non-Professional Customers)	The monthly lump sum (in €) applies for Non-Display Data Usage for trading based activities and Other Application Usage and/or Onward Dissemination to an unlimited number of Non-Professional Customers and is available on request. The amount is charged on a monthly basis in advance.	Order via online order form in MD+S interactive.
Lump Sum KAIKO® Information for Non-Display Data Usage (includes Internal Usage)	The monthly lump sum (in €) applies for Non-Display Data Usage trading based activities and Other Application Usage and/or Internal Usage and is available on request. The Customer may opt for a 50 % discounted special offer. The special offer applies for the first year for specific Information Products ordered before 31 December 2024. The fees depend on the number of Access IDs and/or Devices, which use Information for Display and/or Non-Display purposes according to the definitions in Section 2 of the General Terms and Conditions to the Market Data Dissemination Agreement. These are subdivided in two price levels: (i) Entry: 1 - 30 Access IDs and/or 1-3 Devices and (ii) Unlimited: unlimited number of Access IDs and/or unlimited number of Devices or the number of Access IDs and/or Devices cannot be controlled or specified or only the unlimited price level is available. The Entry price level can be ordered multiple times to increase the coverage of Access IDs and/or Devices. The amount is charged monthly in advance.	Order via online order form in MD+S interactive in the respective price level.
Lump Sum KAIKO®, Information for Non-Display Data Usage (includes Onward Dissemination to Non-Professional Customers)	The monthly lump sum (in €) applies for Onward Dissemination to Non-Professional Customers and/or Non-Display Data Usage for trading based activities and Other Application Usage and is available on request. The Customer may opt for a 50 % discounted special offer. The special offer applies for the first year for specific Information Products ordered before 31 December 2024. The fees depend on the number of Access IDs and/or Devices, which use Information for Display and/or Non-Display purposes according to the definitions in Section 2 of the General Terms and Conditions to the Market Data Dissemination Agreement. These are subdivided in two price levels: (i) Entry: 1 - 500 Access IDs and/or 1-3 Devices and (ii) Unlimited: unlimited number of Access IDs and/or unlimited number of Devices or the number of Access IDs and/or Devices cannot be controlled or specified or only the unlimited price level is available. The Entry price level can be ordered multiple times to increase the coverage of Access IDs and/or Devices. The amount is charged on a monthly basis in advance.	Order via online order form in MD+S interactive in the respective price level.

E CFD Data Usage

E.1 General Provisions CFD Data Licence Fees

CFD Data Licence Fees apply for CFD Data Usage and consist of a Basic Licence Fee, a White Labelling fee and of a Numbers of Users fee.

The Basic Licence Fee shall apply if the respective Information Product is used within a CFD Data Usage and includes the right to provide the calculated prices to less than 1000 Users.

A fee is payable on a cumulative basis in addition to the Basic Licence Fee if the calculated prices within a CFD Data Usage are provided to Users via White Labelling Partners. For this purpose, the following categories may be licensed:

- Tier 4 – Licence includes the right of provision to up to 5 White Labelling Partners.
- Tier 3 – Licence includes the right of provision to up to 10 White Labelling Partners.
- Tier 2 – Licence includes the right of provision to up to 15 White Labelling Partners.
- Tier 1 – Licence includes the right of provision to more than 15 White Labelling Partners.

A fee for the number of Users is payable on a cumulative basis in addition to the Basic Licence Fees if the calculated prices within a CFD Data Usage are provided to more than 1,000 Users. The following sliding scale applies:

- Tier 4 – Licence includes the right of provision to up to 2,000 Users.
- Tier 3 – Licence includes the right of provision to up to 5,000 Users.
- Tier 2 – Licence includes the right of provision to up to 10,000 Users.
- Tier 1 – Licence includes the right of provision to more than 10,000 Users.

The number of White Labelling Partners and the number of Users are Units of Count within the meaning of Section A para. 1. If Onward Dissemination to API Customers takes place in accordance with the table in Section E.2, in which above listed Units of Count cannot be determined, the fees in Section E.2 based on the Unit of Count API Customers apply.

For the purposes of this Section E, a User is defined as a person or entity who during the respective month at least at one time held a position in an instrument where the price is calculated based on Deutsche Börse AG Information. If a User has multiple accounts with the Customer, the Customer is allowed to net these accounts with regard to the CFD Data Licence Fees, if it can be demonstrated that the accounts belong to the same User. Such netting is not permitted if the above-mentioned requirements are not fulfilled. The number of Users has to be indicated when placing the order in MD+S interactive. The number of Users per month has to be demonstrated also for the past on request or in case of an Audit.

For CFD Data Usage of other Information Products than those specified in Section E.2, Deutsche Börse AG has to be contacted in advance. The terms applicable to CFD Data Usage are specified in Section VI of the General Terms and Conditions to the Market Data Dissemination Agreement.

E.2 Standard CFD Data Licence Fees

CFD Data Usage

			CFD Data Licence Fees €/Month			
			Tier 4	Tier 3	Tier 2	Tier 1
Number of White Labelling Partners			up to 5	up to 10	up to 15	more than 15
Number of Users			<2,000	<5,000	<10,000	≥10,000
Xetra® Ultra	Basic Licence Fee	2,332.00				
	White Labelling Partners		2,332.00	4,430.00	6,295.00	7,927.00

	Users		405.00	1,575.00	2,970.00	4,275.00

1) Xetra® Core Licence Fees do not apply, if respective Licence Fees for the respective category for Xetra® Ultra are being paid.

2) Xetra® ETFs & ETPs Fees do not apply, if respective Licence Fees for the respective category for Xetra® Ultra are being paid.

3) Eurex® Core Licence Fees do not apply, if respective Licence Fees for the respective category for Eurex® Ultra are being paid.

4) Only the Licence Fee for the Information Product with the higher granularity applies and the licence of the same Information Product with a lower granularity and for the respective category is included in the Licence Fee for the Information product with the higher granularity.

CFD Data Usage, where the Customer provides calculated prices to third party platforms without being able to determine the number of Users or White Label Partners of those third party platforms (which regularly will be the case when providing the calculated prices via an application programming interface (API) or data feed), is subject to:

- a) the conclusion of a Market Data Dissemination Agreement by the provider of the third party platform with DBAG and payment of the applicable CFD Data Licence Fees in accordance with the Price List; or
- b) the notification of DBAG by the Customer of respective third party platforms which shall be provided with calculated prices as part of its CFD Data Usage. The Customer has to remunerate the licence fee for the relevant Information Products as specified in the table “API Customers – Scale Prices” for each third party platform. In addition, the Customer falls automatically under Tier 1 with regard to the number of Users and has to pay the corresponding Tier 1 CFD Data Licence Fees regardless of the actual number of Users.

API Customers – Scale Prices

Number of API Customers	CFD Data Licence Fees €/Month			
	Xetra® Core / Xetra® Ultra	Eurex® Core / Eurex® Ultra	DAX® Indices / STOXX® Indices	Regional Exchanges
1	1,296.00	1,651.00	777.00	277.00
2	2,591.00	3,301.00	1,556.00	556.00
3	3,886.00	4,952.00	2,333.00	833.00
4	6,909.00	8,803.00	4,166.00	1,500.00
5	8,635.00	11,004.00	5,166.00	1,833.00
6–10	12,414.00	19,258.00	7,443.00	2,667.00
11–20	13,493.00	22,008.00	8,110.00	2,888.00
21–30	14,032.00	24,209.00	8,442.00	2,999.00
more than 30	14,573.00	27,510.00	8,721.00	3,110.00

Number of API Customers	BMV® Spot Market	MexDer® Derivatives Market	BMV® Indices
	1	1,107.00	910.00
2	2,213.00	1,819.00	1,293.00
3	3,319.00	2,729.00	1,939.00
4	5,880.00	4,869.00	3,467.00
5	7,394.00	6,046.00	4,289.00
6–10	10,597.00	8,720.00	6,168.00
11–20	11,528.00	9,470.00	6,756.00
21–30	11,994.00	9,845.00	6,992.00
more than 30	12,459.00	10,219.00	7,285.00

E.3 Special Provisions CFD Data Licence Fees

Special Fees, Netting, Campaign

	Description and Prices	Supplemental Provisions
Users for whom the Customer already pays Data Fees	If the Customer already pays Data Fees for a particular User for the relevant Information Product, this User does not need to be taken into account for the CFD Data Licence Fees.	The number of Users has to be taken into account for the order via the online order form in MD+S interactive. The number of Users per month has to be demonstrated also for the past on request or in case of an Audit.
Non-Display Data Usage in connection with CFD Data Usage	If the Customer in relation with its CFD Data Usage is also subject to the Non-Display Data Usage licence, e.g. for the internal risk management of its CFD business, this Non-Display Internal Usage is covered by the CFD Data Licence Fees.	The Customer has to inform Deutsche Börse AG of a respective Non-Display Data Usage in advance and has to obtain from Deutsche Börse AG the written approval that the internal Non-Display Data Usage is covered by the licence for CFD Data Usage. The Customer needs to demonstrate on request or during an Audit also for the past that the internal Non-Display Data Usage has solely taken place in connection with the CFD Data Usage.
Usage of more than one Information Product for the calculation of prices for one instrument	Where the CFD Data Usage includes more than one Information Product for the price calculation of a single instrument, the Customer shall only pay the CFD Data Licence Fees for the Information Product with the highest price according to the Price List.	The Customer needs to inform Deutsche Börse AG about the CFD Data Usage with multiple Information Products in advance and needs to agree with Deutsche Börse AG the licensing process.
